# Exercitia Latina I: Exercises For Familia Romana (Lingua Latina) (Pt. 1, No. 1)

## Synopsis

This workbook contains supplemental grammatical exercises for each of the 133 lectiones (lessons) in *Familia Romana* (Lingua Latina Pars I). Hans Årberg's Lingua Latina per se illustrata is the world's premiere series for learning Latin via the Natural Method. Students learn grammar and vocabulary intuitively through extended contextual reading and an innovative system of marginal notes, giving students the opportunity to learn Latin without resorting to translation. Further information on *Familia Romana* and all titles in this widely adopted series can be found at [www.hackettpublishing.com](http://www.hackettpublishing.com).

## Book Information

Series: Lingua Latina

Paperback: 136 pages

Publisher: Focus; 1 edition (June 1, 2005)

Language: English

ISBN-10: 1585102121

ISBN-13: 978-1585102129

Product Dimensions: 8.5 x 0.8 x 11 inches

Shipping Weight: 12.8 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars (See all reviews) (23 customer reviews)

Best Sellers Rank: #41,551 in Books (See Top 100 in Books) #81 in Books > Reference > Words, Language & Grammar > Reference #270 in Books > Reference > Dictionaries & Thesauruses > Foreign Language Dictionaries & Thesauruses #329 in Books > Textbooks > Humanities > Foreign Languages

## Customer Reviews

My son (14) and I (48) are using this book. You notice how you advance in understanding Latin. Exercises are pertinent and helps you to check if you got the idea or not. We have three books: Pars 1, Exercitia and Answer key. You can check your progress and test yourself. I guess it could be more difficult without the answer key book. It's a nicely edited book, written to help you to understand.

If you are buying this to learn Latin, I recommend buying all 4 items at the same time. They compliment each other, and are needed for cross-referencing. *Familia Romana*, *Lingua Latina*: Pars I Exercitia Latina I, *Lingua Latina* Teacher's manual, and the *Latine Disco* (student manual). My son

has had 2 years of a Latin Primer, and this has been a wonderful way to continue his language study. It's interesting as well as challenging. I have not studied Latin, but have learned other languages, so I am familiar with endings, masculine/feminine words. It requires help from a parent or teacher (he's in 6th grade). If you have never studied another language, this would be difficult to teach. We have had to use a Latin/English dictionary to help with some of the words. None of the directions are in English. It starts out simple, and progresses. This book only contains the exercises, and not the answers. If you don't have *Familia Romana*, then don't buy this book.

I love *Lingua Latina*, and I love the workbook. But I only gave it 4 stars because there ARE a few mistakes in the workbook, and it is missing an answer key (sometimes... u just REALLY wanna know if you're right...). Overall, though... I would still recommend it to anyone.

While I love this book, the complaints of some of the negative reviewers have some truth in them. After a while, most adults will probably become frustrated with *Familia Latina* unless they are also using a more traditional text with a systematic presentation in English of the Latin grammar. But, nevertheless, *Familia Latina* is a great way to get a taste of Latin, a great tool to introduce a child who is not able to tolerate grammatical drills or master a systematic presentation of grammatical rules to the language, and a great reader to supplement other books and classwork. The second book in the series, *Roma Eterna*, makes a delightful reader for those who continue their study of Latin. *Lingua Latina: Pars II: Roma Aeterna*.

Great book for everyone because it teaches Latin in Latin. What I like it most is the fact that you learn the language as a live language, and not only by reading classic authors from an ancient era. But on my study I keep changing from *Lingua Latina* and *Gramatica Latina* (Prof. Napoleão Mendes de Almeida, in Portuguese), because sometimes I think it is better to know why you are doing or saying the language in a particular way. In *Lingua Latina*, first you learn how to speak, for later (and for me too later) learn why you say that way. Buy *Lingua Latina* and get satisfied up to the last cent you paid it.---- PT-BR -----Se vociferá quer aprender latim falando latim, esse é o livro. *Lingua Latina* é um livro de latim todo escrito em latim. Se vociferá não é o estúdio interessado em ter outro idioma servindo de elo de união entre o português e o latim (nem mesmo sua língua materna), entendo que é só comprar. Eu não gosto do fato de muitas vezes ele ensinar o como falar sem explicar o porquê de falar assim. Por isto eu sempre fico alternando entre ele e a *Gramática Latina* do Prof. Napoleão Mendes de Almeida, que é a

melhor gramÁjtica em portuguÁfs que vocÁfÂa pode encontrar. EstÃj a venda na Livraria Saraiva. Lingva Latina vale cada centavo gasto nela. Bom estudo.

This book is really useful and helpful in learning Latin. It's well-structured and repetitive enough to help you remember things without being dull. For additional reading practice I liked Lingva Latina - Via Latina: Easy Latin Reader (Latin Edition) which has graded texts and plenty of footnotes.

These exercises accompany a reader and are a useful companion to it. The exercises are all in Latin; in other words, you can not receive instructions or grammar instruction in English. The student has to work at her/his lessons in the "foreign language." This is a good "angle" from which to approach lessons in Latin, for it forces the student to think about the lessons in a different way. Maybe these exercises are not the only ones the student should use, but they are a good part of a total Latin curriculum.

For those unfamiliar with the Lingua Latina series, Exercitia Latina I is a supplement to the main text, Familia Romana. I am five chapters in to Exercitia Latina and have thus far found it useful. Be aware, however, that this book consists of grammar exercises, which are not always scintillating and titillating. I strongly recommend purchasing the Teacher's Materials in conjunction with Exercitia Latina because it has the answer key.
