Reading Across The Disciplines: College Reading And Beyond (6th Edition)

Synopsis

Reading Across the Disciplines provides reading strategies for a variety of academic disciplines (more than any other available text), concise skill instruction, and extensive practice to improve college-level reading and thinking skills. Â Reading Across the Disciplines is organized into three parts for flexibility and ease-of-use. Part One presents a brief skill introduction (in handbook format) introducing students to essential vocabulary, comprehension, critical reading, and reading rate skills. Part Two has twelve chapters, each containing three readings representative of a different academic discipline.

A prepaid access code should have come with the book, but I found none. I planned to return this book. If you buy this book for the online reading lab access code, do not buy this one! you can directly buy the online code and when you registered you will have an electronic one.

There is no access code. Now I have to buy the code online for \$40. :/

Good condition, it is what I need.

awesome! i saved a lot of money from renting it. thanks

All the pages where there this is really legit!!!!

Condition wasn't bad
