# DVD: The Case Of Stan And Lecturettes For Theory And Practice Of Counseling And Psychotherapy, 9th

## **Synopsis**

This exciting program features 13 counseling sessions in which Dr. Corey works with client Stan, using each of the theoretical concepts covered in this book. In each of the sessions, Corey applies a few selected techniques that effectively showcase how each theory works in a real-life counseling session. This program already is getting rave reviews from instructors. They often find that assigning portions of the video as homework allows them to use class time productively to discuss video concepts and insights that students have gleaned from the video.

## **Customer Reviews**

This DVD was required for a grad school (psychology) class. The content is so old it is hilarious. Feels like the original footage might have been shot with a cheap, consumer-grade video camera sometime in the late 1980s. I mean, for \$56, the publisher can--and should deliver a much higher-quality product. The text this goes with is very concise (if cheaply made--newsprint), and the content here is pretty good (not great), but wow, was it ever funny to watch. It is long past time to make a new edition--and drop the price by 40%.

I do wish the DVD were bundled with the textbook but since it isn't, I am thrilled that I went ahead and purchased the DVD separately because it truly is a great supplement and makes understanding the text (as well as obtaining a quick review in a relaxed fashion) much simpler! I only wish something like this was available for all textbooks ;)

The seller I bought it from was excellent in shipping and quality, and the DVD itself helps when you are first learning the counseling theories. It is worth the money, I would recommend buying it along with the book.

I RECOMMEND THIS DVD TO APPLY COUNSELING THEORIES. IT IS VERY USEFUL FOR COUNSELING THEORY CLASS FOR EVERY LEVELS. VERY GOOD

Theory and Practice of Counseling and Psychotherapy, The Case of Stan and Lecturettes. The product is like brand new, thank you. Very helpful in step by step knowledge of getting through the studies. DVD, Booklet and course book should be sold as a special price for students!

Really informative. My professor utilized this book to the fullest! The only issue is that it doesn't include the CD of Stan, which is beneficial to the textbook.

Order was just what I needed. I was 100% very pleased with the order and the time it took to get it in the mail. Very Efficient.

I am a active learner, so the DVD series really helped me to better process the information read. I also feel I was better prepared for class discussion.
