Customer Reviews

I received a copy of this set in exchange for my honest review. All thoughts are true and my own. One thing I never thought of when I became a single mom was how many moving parts I had to

consider for my life to be functional. As a divorced mom of three children, our lives are busy to say the least. But there are also many important parts of managing my life that I have needed to evaluate. The Successful Single Mom Book Series does just that. Author Honoree Corder is able to give advice, suggestions, tips and valuable coaching to help a single mom move from surviving to thriving! Her tips related to education, balancing a budget, and finding love again are necessary to help any mom get her life together and accept the new normal.

I feel so refreshed reading these books! I took a step back from myself and truly found myself. I feel like I am on the right track to a better single mom me! There are simple steps that help get your feet to move forward. I found my confidence again and just went for the direction that works with me. I do recommend this series to any struggling mom.
