The authors address six areas of development: perceptual/fine motor, cognition, language, social/emotional, self-care, and gross motor. Volumes 1, 2, and 3 are designed for use with children functioning in the 0-to-36-month developmental age range, while Volumes 4 and 5 extend assessment and programming guidelines to 5-year (preschool) levels.Carefully designed and tested by the University of Michigan's Institute for the Study of Mental Retardation and Related Disabilities, all volumes bridge the gap between assessment and program implementation.
